

To
Sri Naveen Patnaik
The Hon,ble Chief Minister
Odisha, Bhubaneswar

AMURT/36/18-. Dt-20.11.2018.

Regarding AMURT service for Odisha Cyclone affected Titili

Sir,
Most Respectfully,
Greetings from AMURT!

We would like to bring your august information regarding relief service of AMURT in Ganjam/Gajapati district. That Ananda Marga Universal Relief Team (AMURT) is an UN Accord Organization.

AMURT's mission is to help improve the quality of life for the poor and disadvantaged people of the world, and those affected by calamity and conflict. We encourage and enable individuals and communities to harness their own resources for securing the basic necessities of life and for gaining greater economic, social and spiritual fulfillment, while honoring their customs, language, and religious beliefs.

During disasters AMURT provides food and clothing's, shelters, refugee help, counseling etc. It also renders emergency medical services, sanitation etc. It is a team of service oriented volunteers who are disciplined and dedicated for the all-round development of human society. Because of its dedicated and disciplined volunteers and vast organizational network it has the ability to move fast to the affected area. Although the AMURT was officially declared by the founder of *Ananda Marga Pracaraka Samgha* in the year of 1970 but the first seed of it was sowed with the occurrence of drought in Bihar in the year of 1966 and followed by a disastrous earthquake in Maharashtra in the year of 1969 where the dedicated volunteers of AMURT had rendered their selfless service to the victims.

Briefly after that the activity of AMURT penetrated all Indian state boundaries and AMURT was able to expand its activities to assist the victims in all sorts of natural disasters like floods, clan war and earthquake in Bosnia, Somalia, and Rowanda and successfully started training program for sustainable development in countries like Burkina Faso and Ghana. By the way of 'All Round Service' (ARS) program AMURT helps in the development of undeveloped areas in a particular country. It has its branches in more than 160 countries of the world.

The State of Odisha, situated on the eastern coast of Bay of Bengal is ravaged by extremely severe cyclone (Phailin) on 12th Oct night. The southern district of Ganjam was first hit by Phailin affecting over 2.5 million people destroying their houses and livelihood.

Odisha chapter of AMURT led with 65 volunteers and 10 monks reached Ganjam on 14th early morning. We disposed over 250 carcasses of large and small animals in the worst hit Digapahandi, Chikitti, Sanakhemundi and Chatrapur Blocks of Ganjam district. No other organisation was interested to dispose the carcasses. This was a potential threat to spread epidemics. This was a big concern for the district and state govt officials. AMURT volunteers have been helping the district administration there to distribute relief materials and doing sanitation in different public institutions and health care centers.

In the last super cyclone of Odisha AMURT has received the honorable **Biju Chackra** facilitation from your hands for the sake of providing extraordinary service for Rescue-Relief-Rehabilitation services in odisha .

In this situation, The Relief Materials distributed by the AMURT-Global in following details:-

From 17th October,2018 onwards

Sl. No	Name of the Village	Panchayat	Block & District	Relief Materials provide	Number of victims benefited As per House hold

AMURT–Global has been approached towards giving conclusive findings and data analyzed by the survey tool. Since the AMURTs team and its volunteers also provided support in the affected villages, AMURT has taken a comparative analysis of the impact and effectiveness of the Rescue–Relief & Rehabilitation service. This comparative analysis was helpful in showcasing the difference in disaster resilience of the diversified program communities versus the non-program communities.

Additional Responses:

The AMURT-Global volunteers were quick respond to the Cyclone affected area. They rushed to the affected villages, held meetings with all important stakeholders, called upon Community mobilizes / volunteers and task force teams and prepared phase-wise action plans. The District authorities have interacted with the Government to share information about the activities, volunteers had been visited the most vulnerable villages and identified miserably affected locations and there were immediate needs, where nobody hadn't yet been reached in the vulnerable areas, In this condition, the AMURT teams made sure that each house was visited once again and ensured that people who stayed behind, were evacuated to nearest Government relief centres. The kitchen camp sets provided under the program were of great help during preparation of food for evacuees. Even extreme environmental conditions could not deter AMURT volunteers from rescuing people, clearing debris & clearing roads for greater accessibility. The AMURT volunteers were active and coordinated very well before, during and after the cyclone. We also mentioned that we shall further try to build upon the initial learning's to capacity in responding to disasters and would especially make efforts to further improve coordination with the Govt. body towards better disaster response. On the other hand, AMURT has decided to involve post disaster services like to be immediate initiated ***for the livelihood and sustainable integrated development programme/ Co-operative service / Ideal Farming and Capacity building programme in the unreachable tribal area of Gajapati district given priority to women empowerment.*** Initially step towards in R. Udayagiri & Rayagada Block, also the responders mentioned that they should need to gain more knowledge and learn new scientific methodology skills towards responding to any emergency.

It is for your kind information and favourable supports and associates more and more in this humanitarian service.

**Thanks
Yours in the service of Humanity**
