

Extremely Severe Cyclonic Storm FANI in Odisha- as *Undefined Calamity*
(Aftermath FANI Devastation)

Dear Sir/Madam,

After cyclonic storm “Fani caused devastation in Odisha.

FANI had longest life span among tropical cyclones in the Bay of Bengal.

Odisha Government successfully evacuated about more than 14 lakh people from low-lying areas, which remarkably reduced human casualties, unparalleled in the world. **Sixty four (64) people have been killed.**

Extremely very severe cyclone *Fani* storm which made a landfall in Puri (Brahmagiri) on Friday 3rd May, 2019 in Odisha coast around 8 am, triggering heavy rainfall copious with high velocity windstorms with speed of 195-200 kmph in vast areas. The cyclone storm, Which started as a low pressure near the equator. Took about 2 hours to cross the coast after land fall and then headed northwards towards Bhubaneswar was within the eye of the cyclone, the diameter of which was about 28 KM. There was a lull in the cyclone for about 30 minutes after which the wind direction as well as the speed changed. The area along *Puri* is witnessing strong winds. Large areas in *Puri* and other places were submerged with water as heavy rains battered the entire coastal belt of the state. Blowing away thatched roofs of house, swamped towns and villages, Several trees were uprooted and all temporary structures and electric poles as well as Mobile towers had been destroyed at some places including Bhubaneswar and other part like Cuttack, Khurda, Ganjam, Jagatsinghpur , Kendrapada & Balasore District.

Extremely Severe Cyclonic Storm has wreaked havoc in the state of Odisha. Heavy rainfall and high-speed winds have destroyed livelihoods leaving families urgent need of help. They have no shelter, food and clean water, Electricity and Mobile.

Affected people are left without home and livelihood. They are in urgent need of safe drinking water, medical and hygiene supplies, food, and long-term recovery and rehabilitation support to cope with the disaster.

Civil society like AMURT-Global is working with the most vulnerable communities of Odisha, reaching out to meet the urgent needs of people affected by the cyclone.

Challenges: *For urgently to help people receive critical relief supplies to survive the disaster.*

- Distribute emergency food supplies.
- Restoration of Water supply/ Electricity/Telephone & Internet
- Provide shelter and hygiene kits to support cyclone-affected families.
- Provide rehabilitation to displaced people who have lost their homes and livelihood
- Repair water resources as most of the villages are inundated and safe water is unavailable
- Give long term recovery to affected families and help them stand back on their feet
